

Pre-School's Home task 17-4-23

Eggs!

Return by Wednesday 1st May

EYFS Objectives

Completing this activity with your child helps them reach these age related expectations:

Communication and Language:

To use a wider range of vocabulary when talking about the 3 facts they have learnt about.

Understanding The World

To understand the key features of the life cycle of an animal.

To talk about the changes that they notice when they are cooking.

Over the past few weeks we have been reading the story of 'Daisy and the Egg'. We have been looking at eggs and talking about what animals come from eggs. This week the children watched an episode of Come Outside all about eggs. We also been looking at frogspawn and the life cycle of a frog.

For their homework could your child find as many different animals that hatch from eggs. Are they type of bird, reptile or something else?

Next can they go into the kitchen and cook/bake something by using an egg . I wonder what they will decide to make? Will they fry, scramble or boil their egg or will they use it to make a cake or some biscuits?

Name:

Let's Get Cracking

What animals hatch from an egg? Can you draw some on the back of this page

Which one is your favourite one?

Can you find out 3 facts about this animal.

What did you cook/bake with your egg?

What happened when you cooked it?
