This week in mathematics we have looking at the different heights of Jasper's beanstalks as it grew. We then had to sort the various heights and put them in order starting with the shortest one. Finally, we ended up with the tallest beanstalk.

For this homework could you look at the different heights of the people in your family that live with you. Can you draw them in height order and talk about who is the tallest and who is the shortest? Remember to use the words tall and short not big and small or long.

Name:

Let's Get Measuring and Ordering

Can you draw your family in height order starting with the shortest?

Please can your child draw the pictures on the back of this sheet.

Who was the tallest?

Who was the shortest?

Was anyone shorter than you?
